ARC International is the global leader in clean glassmaking and custom tableware solutions. Known as an innovator in glassware production, ARC provides high-quality products to restaurants, hotels, and retailers, as well as industrial glass to business-to-business customers. ARC deploys the latest in manufacturing technology and invests extensively in research and development to create durable and elegant crystal stem wine glasses, beer mugs, decorative custom glassware, glass plates, cookware, candle holders, and other items.

In 2012, ARC's Millville manufacturing plant became the cleanest glassware production facility of its kind through major innovations to reduce primary emissions. The company invested nearly \$40 million to achieve this technological advancement while increasing capacity and creating additional U.S. jobs.

As it celebrates its 30th anniversary, ARC remains committed to excellence and innovation, responding to changing customer needs, and producing the finest glassware products available.
